

## **AMBREY**

Eleanor has 8 years' experience in the industry and is a Director at Ambrey responsible for compliance and legal management working with stakeholders in multiple jurisdictions. Her oversight of policy, regulation, licencing and accreditation delivers a practical framework of, commercially focused, operational and regulatory processes.

Ambrey holds the largest global client base for maritime services and continues to chart new territory. This presents the challenges Eleanor develops into frameworks for the company and the industry.

Eleanor's interests are in widening the understanding of the commercial aspects of the standards delivered in the industry while engaging in continual dialogue with regulatory and legislative bodies.

Focused on developing standards across the industry Eleanor is looking forward to joining the Executive Committee to broaden awareness of maritime sector compliance and further develop the collective voice of all stakeholders.

Eleanor has an BA in history from the University of Essex and, prior to joining the industry, was a London based television producer.
