

## Andrew Farquhar CBE

I began work in the British Army and during my 32-year military career, I have served all over the world.

I am the Managing Director (UK) of GardaWorld, a global company that operates predominantly in the Middle East, Afghanistan and Africa, with a global presence. I chair the Company's Oversight Board, an independent Board established to hold the executive to account. I am engaged with the Company's Compliance and Assurance efforts, including support to, and monitoring of internal and external audits. I manage the Company's strategic UK clients, with an emphasis on Government contracts; be they Diplomatic, Developmental or Defence.

From 2014 to 2017, I was the Chair of SCEG and a member of the EC.

My value to the EC going forwards is my PSC experience and in-depth understanding of Governments, NGOs, UK and USA security sectors, and a passion to better engage with the UK MoD. I listen well and contribute positively. I believe in inclusive debate where views are evaluated and challenged. I believe in high values and standards. I am easy to get on with and believe that teamwork generates high morale and the best outcomes.

Put simply, I will champion SCEG members' issues.
